Minimum IRA: $1,000

Methodology
Screening Venue: In-house
Screening Party: Compliance Department
Screening Database Used: Trade Order Management/Compliance

Screening Process: The Fund’s investment process is enhanced by the Advisor’s integrated investment research, which seeks to add value by complementing traditional fundamental security analysis with the Advisor’s proprietary assessment of critical environmental, social and governance (ESG) issues. The Fund seeks to apply ESG integration across sectors and holdings as part of its risk and opportunity assessment. Tobacco Exclusion. The Fund seeks to avoid investing in companies classified under the tobacco industry sector of the Barclays Global Aggregate Index, the Barclays U.S. High Yield Index or the Barclays Global Emerging Market Index; or, in the opinion of the Fund’s Advisor, any similar securities in the Barclays Municipal Index.

Disclaimer: Investment in mutual funds involves risk, including possible loss of principal invested. You could lose money on your investment in the Fund or the Fund could underperform because of the following risks: the market prices of bonds held by the Fund may fall; individual investments of the Fund may not perform as expected; and/or the Fund's portfolio management practices may not achieve the desired result. Bond funds are subject to interest rate risk and credit risk. When interest rates rise, the value of fixed-income securities will generally fall. In addition, the credit quality of the securities may deteriorate, which could lead to default or bankruptcy of the issuer where the issuer becomes unable to pay its obligations when due. High-yield, high risk bonds, which are rated below investment grade, can involve a substantial risk of loss because they have a greater risk of issuer default and are subject to greater price volatility than investment grade bonds and may be illiquid. An active trading style can result in higher turnover (exceeding 100%), may translate to higher transaction costs, may increase your tax liability, and may affect Fund performance. The Fund is non-diversified and may be more volatile than a diversified fund.
