Account Minimums

Minimum Account: $2,500; $1,000 with automatic deposit

Minimum IRA: $1,000
Methodology

Screening Venue: In-house and outside

Screening Party: Social Research Department

Screening Database Used: MSCI ESG Research (formerly KLD Research & Analytics, Inc.), Trucost, and Investor Responsibility Research Center

Screening Process: An integrated process that involves avoiding companies that have demonstrated poor environmental performance and industries of concern including fossil fuels, tobacco, nuclear power, and nuclear energy. This is complemented by proactively seeking out companies that have shown environmental leadership in product offerings and operations in industries such as alternative energy, eco-friendly products, green technology, organic/natural food supply, water solutions, and sustainable development.

Specific Screening Information by Category

Environment

- Climate / Clean Technology: Combination of Positive and Restricted/Exclusionary Strategies - The Green Century Balanced Fund has been fossil fuel free since 2005. It does not invest in the extraction, production, or refining of coal, oil or gas or companies that produce or transmit electricity derived from fossil fuels or transmit natural gas or have material carbon reserves. It has a carbon footprint that is almost 50% less than the S&P 500 Index by avoiding traditional energy investments and instead investing in the energy efficiency and renewable energy sector. It also seeks companies that are transparent with their disclosure of carbon emissions and impacts.
- Pollution / Toxics: Restricted/Exclusionary Investment - Use qualitative research to avoid companies that are heavy polluters or use toxic chemicals in their products.
- Other Environmental: Combination of Positive and Restricted/Exclusionary Strategies - Proactive investment in companies involved in water treatment and conservation, air pollution control, and pollution prevention; also companies with with eco-friendly products and supply chain environmental policies. Avoid companies that flout basic standards and protection of the environment.

Social

- Community Development: Positive Investment - Proactive investment in green community development projects.
- Diversity & Equal Employment Opportunity: Combination of Positive and Restricted/Exclusionary Strategies - Use qualitative research to seek companies with good governance practices such as policies and practices to support a diverse work environment. Avoid companies with poor track record in diversity.
- Human Rights: Combination of Positive and Restricted/Exclusionary Strategies - Use qualitative research to seek companies with good governance practices such as policies and practices that support human rights, pay fair wages, and enforce a code of conduct. Avoid companies with poor track record in human rights.
- Labor Relations: Positive Investment - Use qualitative research to Seek companies with good governance practices such as policies and practices that support human rights, pay fair wages, and enforce a code of conduct. Avoid companies with poor track record in employee relations.

Governance

- Board Issues: Combination of Positive and Restricted/Exclusionary Strategies - Use qualitative research to seek companies with good governance practices such as sufficient Board oversight - especially on sustainability issues and incorporating environmental, social, and governance performance factors to compensation calculations. Avoid poor performers.
- Executive Pay: Combination of Positive and Restricted/Exclusionary Strategies - Use qualitative research to Seek
companies with good governance practices such as policies and practices that support fair and equitable pay. Avoid poor performers.
