Methodology

Screening Venue: In-house

Screening Party: ClearBridge Fundamental Research Team

Screening Database Used: Internal (proprietary ESG team), Bloomberg ESG and MSCI (aka RiskMetrics/Innovest/ISS/KLD)

Screening Process: ClearBridge’s proprietary ESG evaluation process is integrated into fundamental research and stock selection as part of a bottom-up approach to investing that seeks best-in-class names within each industry. The primary source of ESG research is the Firm’s internal Fundamental Research Team, whose analysts have specific ESG criteria that they consider in addition to the fundamental research coverage of portfolio holdings.

Specific Screening Information by Category

Environment

- Climate / Clean Technology: Positive Investment - Wind, solar, hydro
- Pollution / Toxics: Combination of Positive and Restricted/Exclusionary Strategies - We avoid the bad actors, and try to support the better performing companies on pollution issues.
- Other Environmental: Positive Investment - The ESG program utilizes a proactive approach to environmental issues screening, with a focus on identifying those companies that are constructively addressing the environmental issues that arise in their operating arena, whether driven from regulatory initiatives, multilateral public policy initiatives, changing societal attitudes, and/or shifting consumer values.

Social

- Community Development: Positive Investment - Considers issues relating to mission-related philanthropy, volunteerism, human rights responsiveness and public policy engagement.
- Diversity & Equal Employment Opportunity: Positive Investment - Consider diversity issues with a focus on identifying those companies that we believe have management teams that recognize and address constructively the contribution of a diverse workforce and management team in an increasingly multicultural, global economy.
- Human Rights: Positive Investment - Screens address a broad array of issue areas including sweatshops and child labor, forced labor, freedom of association, wages and compensation, and operations in countries associated with oppressive regimes, documented human rights abuses or lack of public participation in decision-making.
- Labor Relations: Combination of Positive and Restricted/Exclusionary Strategies
- Conflict Risk: Restricted/Exclusionary Investment

Governance

- Board Issues: Positive Investment - Considers such issues as management structure, board composition, governance guidelines, transparency and disclosure.

Products
- **Alcohol**: *Restricted/Exclusionary Investment* - Excludes companies that have significant involvement in the manufacture of alcoholic beverages.

- **Animal Welfare**: *Positive Investment* - Considers such issues as conducting tests on animals for personal care, cosmetic, medical/surgical, or household/other consumer products. Also considers issues related to companies that manufacture animal products.

- **Defense/Weapons**: *Restricted/Exclusionary Investment* - Excludes companies that have significant involvement in the manufacture of firearms, ammunition, or other weapons, as well as companies that have significant weapons-related contracts with the Department of Defense/Department of Energy.

- **Gambling**: *Restricted/Exclusionary Investment* - Excludes companies that have significant involvement in the provision of gaming services.

- **Tobacco**: *Restricted/Exclusionary Investment* - Excludes companies that have significant involvement in the manufacture of tobacco products.

**Other**

- **Other/Qualitative**: ClearBridge’s proprietary ESG Rating System assigns scores to companies on an on-going basis. Each stock recommended carries a definitive rating, or proprietary score that is intended to signal how well a company has executed its ESG practices. The ratings are monitored continuously and updated annually, barring a significant change or event.

- **Shareholder Engagement - Private Dialogue**: Conducted with companies on environmental, social or governance issues.

- **Description of Shareholder Engagement**: At ClearBridge we proactively and regularly engage companies on ESG issues. The topics we discuss with companies vary depending on what issues are relevant to the individual company and are based on our analyst’s knowledge and understanding of the particular industry. The engagements occur in various ways, including one-on-one meetings with senior management as part of our integrated research process and through our active participation in various ESG organizations.

**Disclaimer**: Equity securities are subject to price fluctuation and possible loss of principal. Small- and mid-cap stocks involve greater risks and volatility than large-cap stocks. International investments are subject to special risks, including currency fluctuations and social, economic and political uncertainties, which could increase volatility. These risks are magnified in emerging markets. As a non-diversified Fund, it is permitted to invest a higher percentage of its assets in any one issuer than a diversified fund, which may magnify the Fund’s losses from events affecting a particular issuer.
